

SCIENCE 'UNSUMMIT' 2012 | April 23 - 25th, 2012 | The Artisphere, Arlington, VA

Innovation - A Global Conversation

The Future of Science and Technology Join the conversation!

Register Now at <http://unsummit2012.eventbrite.com>

Program:

Tuesday April 24, 2012

Official Welcome 8:30 a.m. – 9:00 a.m.

Panels 9:00 a.m. – 12:00 p.m.

Three Interactive Panels to Start

- *Collaboration - what does it take?*
- *Innovators in Education*
- *Science - Society, Design, Communication*

Lunch 12:00 – 1:30 p.m.

Open Space 1:30 – 4:45 p.m.

Open Space Session 1 & 2

Wrap-up 4:45 p.m. - 5:30 p.m.

Wednesday April 25, 2012

Check-in and Open Space 8:30 a.m. – 12:00

Open Space Session 3 & 4

Lunch 12:00 – 1:00 p.m.

Open Space Final Session 1:00 – 4:00 p.m.

EXPLORE... how cross-functional teams, communication, and open leadership can inform the science of innovation, and support innovation at the forefront of science and technology.

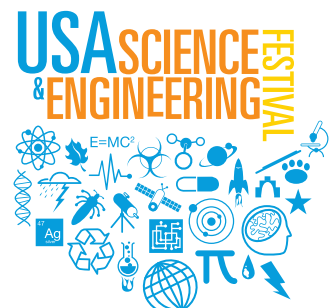

ENGAGE... in dynamic panel discussions and Open Space conversations with peers - scientists, thought-leaders and innovators - as we unleash our individual and collective leadership to develop new ideas and nurture current successes on the innovation frontier.

Join us for this unique collaborative event for people with a passion for science and technology - maybe you!

You will join a diverse group of educators, policy makers, graduate students, business people, entrepreneurs, and scientists who care deeply about the future of science and technology. The format is structured for all participants to create an agenda together, such that all issues you care about can be put forth, and discussed as emergent themes are chosen by the community.

We have seen a great deal of anecdotal evidence indicating stakeholders and institutions are searching for a fundamental change in our approach to innovation and the systems of science. Yámana Science and Technology is inviting pioneers to bridge this divide by participating in our landmark event, the Science 'UnSummit' 2012.

OFFICIAL PARTNER

LEARN... about new developments and emerging trends that are currently driving major system changes, going beyond competition and into truly collaborative space - even amongst former competitors. Find out why the Council on Competitiveness is embracing collaboration.... with other countries. And why the design community is creating a powerful partnership with science.
